62.73 EVIDENCE OF "WAKRU" SUPERIORITY

> "1913 test order leads to 1914 entire order"

Your letter, answering questions about lifting Darwin Tulips, received; for which I thank you very much. I am sending you my entire order for Tulips, as those I bought from your firm last year were superior to those I bought elsewhere. Am also sending a small order for a friend. Nelsonville, N. J. E. N. N.

### Bulbs ordered last year highly satisfactory—Darwin Tulips a wonder

July 5, 1915.

The bulbs I ordered from you last Fall produced an abundance of beautiful blooms. The loveliness of the Darwin Tulips was to me a wonder. Your bulbs are highly satisfactory and I always recommend them to my friends. my friends. Nelsonville, N. J.

E. N. N.

### Daffodils wonderful this year

The tulip flowers are splendid. My daffodils were wonderful this year.
Tioga, Phila. A. E. H.

#### Fine, firm bulbs sent-bloomed beautifully

You have sent me fine, firm bulbs which bloomed beautifully. I enclose list for catalogs. As these friends admired my tulips and hyacinths, I am sure they will order from you. Charlestown, W. Va.

J. M. J.

## Bulbs so grand last year, want

to order more

The bulbs I ordered from you last year were so grand that I want to get more. I have just read in Garden Magazine that your catalog is "on press." Send me one. Americus, Ga.

D. R. A.

## "As fine a lot of Dutch bulbs as ever I've seen"

ever I've seen

November 26, 1915.

The bill of lading for my bulbs was received on Wednesday and the case of bulbs arrived the same day. It is as fine a lot arrived the same day. It is as one a lot of Dutch bulbs as I have ever seen. Next year I am going to send my order in earlier in the season, as I realize that the present conditions make shipping delays unavoidable.

New Orleans, La. E. H. R.

#### Bulbs an eye opener-30 to 34 inches high

The mixture of Darwin Tulips which you sent me last Fall was surely an eye opener to me. Had scores of specimens that stood 30 inches high, and some (a pale lavender) that stood 34 inches high by actual measurement. Have had a dozen inquiries as to where I got such remarkable bulbs.

St. Paul, Minn.

R. W.

## Request for catalog to be sent

I enclose a list of a few dozen flower lovers in this locality and suggest that you send each your catalog. I shall gladly speak to each of them about the fine bulbs purchased from you, and your satisfactory business dealings.

Crawfordsville, Ga. H. F. W.

## Pleased with results in Spring-

sending further order
June 15, 1915.
Last Fall I sent you two orders for bulss
—hyacinths, crocus and tulips—and I was
more than pleased with results this Spring.
I enclose my bulb order for this year.
Cheyney, Pa. C. S. B.

Qde? 1916? DVTCH BY AND PLANS DIRECT FR

Wakru Quality Bulbs are not a new, untried product.

Fifty years ago the growers, Gt. Van Wakru & Kruijff, began growing superior quality tulips, hyacinths, narcissus, etc.

The garden lover in America could not depend on getting these superior grade bulbs till 1911, when their first retail catalog was issued, offering to sell direct to America. Later the name "Wakru" was adopted in connection with

the "Dutch Girl" trade-mark, to designate their very highest quality bulbs.

ORDERS RECEIVED BY AUGUST 1st ARE ALL PACKED IN HOLLAND, assuring superior quality at lower price and trueness to name and color. We make it pay you to order early—see within.

The best evidence of the superior quality of Wakru bulbs is found in the hundreds of voluntary testimonials, covering every State in the Union, and coming from judges of the highest courts, agricultural experts, bank officials, and flower lovers everywhere You will find a few in this booklet.

WAKRU SEED AND BULB CO. P. O. Box 176 Philadelphia

#### "Bulbs make a grand show in my border"

June 15, 1915.

The bulbs I bought last year make a grand show in my border. It was certainly gratifying to me this Spring to overhear many favorable comments by strangers as they passed my residence. I did not know that tulips possessed so many beautiful tints, particularly on such long stems. I desire to thank you for your careful attention to my small orders. I shall order more this season.

Philadelphia.

S. P. B.

#### Blooms admiration of all, spite of climate

March 22, 1915.

**教教的教育的教育的教育教育的,我们就是这个人的教育的教育的教育,我们们是一个人的教育的教育,我们们是一个人的教育教育的,我们们是一个人的教育教育的教育教育的教育教育,** 

Last Fall I obtained some tulip bulbs from you and planted them quite late. I was anxious to see if they would produce anything worth while in this climate, as I had been told it was questionable. The blooms are the admiration of all our neighbors. I enclose a list containing names of many who asked that I have your catalog sent to them.

St Augustine, Fla.

## THE WAKRU GROUP PLANTINGS

Offered last year proved so popular that we are offering this year a large number of special selections. Unless one has a large number of bulbs in his garden and is anxious to add certain specific varieties which his friends have grown, he will probably find no other method of buying bulbs so satisfactory and so economical.

By combining various collection offers you can make your property a bower of bloom throughout, from early spring to June.

Our special offer of 10% discount payable in seeds for orders received and paid for by July 1st applies to all collections on this and rear pages.

Wakru Quality Bulbs are not costly—although it is Wakru policy never to sacrifice quality in order to reduce price. It pays to buy dependable bulbs. If you buy good grade Darwin Tulips, May-flowering Tulips, or Narcissus, you may leave them in the ground and, in addition to the beautiful bloom of the first spring, they will bear largely year after

Prices given are for these special assortments only. Any changes in assortment will entail a considerable addition to cost.

### COLLECTION "E."

#### For \$1.00 We Furnish These 66 Bulbs.

6 Pink Hyacinths (Gertrude Miniature).

12 Early Single Tulips, white, with a delicate tinge of pink (La Reine).

12 Late Parrot Tulips (mixed)

12 Late, May-flowering, Yellow Tulips (Golden Crown).

24 Crocus mixed.

This collection could be used as follows:

Plant the Hyacinths in two pots, bury them in your garden until the middle of February, and bring them into the room. Follow instructions for indoor blooming.

They can also be planted outside and will make their appearance in front of your porch about the same time as the early single tulips. You then have a good combination for an outdoor start. If you plant the Hyacinths in front of a space about 2 feet wide, you should use the early single tulips in the

second row or intersperse with the Hyacinths.

About 6 inches behind that row plant the Late Parrot Tulips, and 6 inches behind that the Late Yellow one. You will have a succession of flowers undoubtedly to your satisfaction. The Crocus should be planted in your lawn or can be put in amongst the other bulbs where they will flower when the others are just peeping above the ground.

#### COLLECTION "F."

We furnish 62 bulbs for \$1.00 specially fitted

as a border for your hedge.

Make a border along your hedge with Daffodils. We will send you 25 Single Daffodils (Princeps) and 12 Double Daffodils (Van Sion), and in addition to these you can plant 25 Winter Aconites, which are the earliest spring-flowering bulbs. The Daffodils can be used on a 50-foot front. You can leave them in the ground and enjoy them spring after spring.

"G"-\$1.00 for 80 Bulbs.

Will edge with a double row of early single tulips, the front of two beds each 12 feet long or of one bed 24 feet long. Plant 6 inches apart. Bloom at about same time and in equal height.

40 Early Single Tulips, scarlet (Artus).

40 Early Single Tulips, white, slightly tinged with pink (La Reine).

H. 40 Darwin Tulips, \$1.00.

Assortment of ten fine-named varieties of these remarkable long-stemmed, long-season tulips, suitable for garden decoration in beds, herbaceous borders, and among shrubs. Remarkable shades and colors.

I. 45 Parrot Tulips, \$1.00.

Assortment of six fine-named varieties of parrot (or dragon) tulips, embracing every shape, shade and coloring in these remarkably artistic flowers. (See cut on front page.)

### J. THE "AMERICA" HYACINTH GROUP.

4 Red, 5 White, 4 Blue for \$1.00.

One bulb for each of the original colonies, 13 in all. Excellent for forcing indoors or planting outdoors.

#### COLLECTION "K."

\$2.00 for 90 May-flowering and Darwin Tulips.

If you already have a bed planted with Shrubs and Herbaceous plants, you could not improve on it better than by planting a quantity of May-flowering and Darwin Tulips amongst them. These will flower at a time when the other plants are just about starting to grow, and the bright colors make a wonderful contrast with the bright green foliage just sprouting out or the darker color of the ever-You need not disturb the bulbs when through blooming, but leave them in the ground and have the same effect for several years.

For this purpose we offer you

12 May-flowering Tulips, yellow (Button d'Or). 12 May-flowering Tulips, blush white changing into deep carmine (Isabella).

12 May-flowering Tulips, orange-red (La Merveille).

12 May-flowering Tulips, white with pink edge (Picotee).

12 May-flowering Tulips, brilliant scarlet with blue center (Gesneriana Spathulata).

30 Darwin Tulips in six different named varieties.

# TESTING GROUNDS

Where all Wakru bulbs are thoroughly tested each year before they are offered to the buying public.

The bedding combinations suggested in this catalog, the special groups listed on the cover, the descriptions of the various varieties—all are thus based upon proven experience.

This is but one of many features which assures "Wakru" dependability.

## Our low prices for finest bulbs

can be maintained this year only by close observance of certain conditions, which are based largely on the present state of transportation congestion, etc.

- (1) Orders received later than dates noted on each page (August 1st on tulips, hyacinths and daffodils, etc., for instance) may not be shipped until October—and are likely to reach you after ground is frozen. The earlier you order, the earlier your goods will be delivered.
- (2) No orders will be taken for less than one dollar.
- (3) No accounts will be opened on orders of less than \$5, and then only when satisfactory references are furnished if party is unknown to us.
- (4) To secure earlier orders, to distribute the work more evenly, and to introduce our New Seed Department, we will allow a cash discount of ten per cent., payable in seeds shown on page 18, for orders sent us prior to July 1st.
- (5) We guarantee Wakru bulbs true to name and color. We cannot guarantee results or growth, which are too often spoiled by neglectful treatment. Claims as to condition of bulbs should be made promptly on arrival. It is well to keep a copy of your order. In a number of cases we have received complaint that goods were incorrectly packed, when the records showed that evidently the customers had not ordered what they intended to order, but what they ordered was correctly sent.
- (6) We strive to deliver all packages by the least costly method. Express costs you less on larger and distant shipments; but parcel postage is cheaper on smaller packages and shorter hauls. In the latter case parcel postage is paid by us and billed to you, as our prices include ocean freight, duties, etc., but not delivery. Address all communications as follows:

## THE WAKRU SEED & BULB CO.

P. O. BOX 176

**PHILADELPHIA** 

(Sole American selling agents for Wakru Quality Bulbs.)

## Note the new, reduced prices in this catalog.

Never before have we offered such remarkable values.

100 prices apply down to 25, of any one variety; 1000 prices down to 250
(Six at dozen prices only where specially marked.)

## **BULBS ARE EASY TO GROW**

The three important points to be remembered are these:

First, to get high quality bulbs always. We have many customers who tell us that results from the hyacinths we sell as second size are better than those ever secured from any other first size bulbs ever secured elsewhere. Yet we recommend that all who can afford them buy our first size, in named hyacinths especially.

Second. Plant early as possible in October, to give the bulbs ample chance to make roots before winter comes; and to plant at as even a depth as possible.

Third. To provide good drainage if your soil is clayey. While bulbs prefer good, rich soil and sun (especially tulips and hyacinths), they grow in any average soil, if well underdrained. Even coal ashes below will help to make clayey soil drain better and aid in avoiding rotting.

CROCUS. These may be scattered all over the lawn. They will stand a lot of rough handling and yet show up cheerfully in the early spring. Plant them a couple of inches deep, single or in little groups.

SNOWDROPS may be treated in the same way and certainly repay for the little money and trouble bestowed on them.

HYACINTHS. A splendid display of these typical Dutch bulbs can be made by putting them in beds. Pick out the location for your bed which can be made oblong, round or square or any shape, according to taste. An oval bed of about 11½ feet by 7½ feet will require about 300 bulbs, while 100 bulbs make an excellent showing in an oblonged bed 2½ by 7 feet. Plant them six inches deep and six inches apart. It will be well to pay attention to the various color combination we are giving under the heading "first size Hyacinths." We might say that the second size as well as Bedding suit the purpose of planting outdoors just as well as the first size and will not run into such a high cost.

TULIPS are also ideal for bedding purposes in much the same manner as the Hyacinths. They should be planted about four inches deep and four inches apart. It is, however, very important to put the right kind and shades in one bed, as all varieties do not flower at the same time and height. Our little guide will help you to pick out the right varieties (see Tulips).

NARCISSUS. While Hyacinths and Tulips like to have plenty of Sunshine, Narcissus are well contented with shady places. Along hedges and around and between evergreen they show up fine. They are not very particular as to the depth at which they are planted.

### INDOOR BLOOMING

In potting bulbs for indoor blooming, be careful not to plant bulbs too deep. The soil should not come within a half-inch of the top of the pot and the top of the Narcissus bulbs should be up to the surface; the Tulips, not over an inch below; Hyacinths or Crocus, not over a half-inch below.

The soil should be light and rich, three parts loam; one part leaf mould and one part sand is a good combination; the leaf mould serving the purpose of holding the moisture.

A six-inch pot should not contain more than five Tulips, or two Narcissus, or two Hyacinths, or six Crocus. An eight-inch pan will held ten Tulips, or eight Hyacinths, or eight Narcissus, or twelve Crocuses.

The bulbs having been potted, they are placed in the cold and dark for a period of a month and a half to three months, being watered only every ten days to prevent the soil from drying up.

It is much simpler if you have garden space to do it, to dig a trench a foot and a half deep, fill in about six inches with ashes, and place the potted bulbs on this layer. Then water well and cover with soil or coal ashes. Unless the season is unusually dry the bulbs will need no further attention till it is time to bring them in. Remember that ample root development is the important point in forcing bulbs. Till the removal of one of the pots from this trench shows that the roots have developed to such an extent that they can be seen through the drainage hole, it is not wise to bring them in.

After bringing these to the light, indoors, an average temperature of 55 degrees is plenty high enough. At no time, especially while the bulb is flowering, should the temperature exceed 60 degrees, if you desire best results. Over three-fourths of the failures in forcing bulbs result from too high a temperature; therefore, beware.

Too much water before rooting and too little water after are the prime causes of failures in raising bulbs. Water plentifully once you have them indoors—remember that the house is dry and warm; that air, light and water are the cheapest things in the world and the most essential to success in indoor bulb culture.

If blooms are being borne on too short flower stems and you know that the root growth is ripe, put an open paper cone about a foot high and a couple of inches wide at the top, over the top of the bulb. The stem will draw up in the desire to reach the light. This treatment is particularly applicable to Hyacinths.

BULBS FOR FORCING

### WATER CULTURE

What better winter decoration for the home is there than the fragrant Paperwhite Narcissus, the Dutch Hyacinths, Daffodils and Crocuses?

Any of these can be easily raised in water, in a flat jardiniere which has been partially filled with sand or pebbles. Stones between the bulbs will hold them firmly in place, assuring erect flower spikes.

Hyacinths grow beautifully in glasses especially made for this purpose and obtainable in most flower shops. Be careful not to let the bottom of the bulb touch the surface of the water. There should be about the thickness of a nickel between. Place the glass in a dark cupboard or closet and wait till the roots crawl over the bottom of the glass. If the water should become foul, let it run out, but never remove the bulb from the

glass. Clean the root by shaking the glass gently after filling again and put in fresh water after the dirt is out. Be careful not to break the roots.

It is well to fill the glasses with soft (rain) water, and to add a little charcoal from the start, using plant food in the water around blooming time to increase the size of the flowers and the strength of the stein.

A dozen or more Crocuses in a flat bowl make an excellent display, but to assure bloom keep these in an unheated room, if possible.

Remember in growing bulbs in water that it is just as essential to get good roots before exposing to the light, as in the case of indoor forcing in soil. Unless there is a good root growth you are almost sure to be disappointed with the results.

#### GERTRUDE (Dark Rose).

#### MINIATURE (Dutch Roman) HYACINTHS

These bulbs, if planted at the same time as Romans, or as soon as they are at hand, may be had in bloom in January, if grown inside. Grown outside they give fine results. By planting 8 to 10 inches deep the blooms last longer.

We can supply all colors mixed at 30c. per dozen, or \$2.25 per hundred. Note again that we offer below definite, named varieties, while those whose motto is "not how good, but how cheap" omit all names. Why buy mixtures, when named varieties cost no more?

#### SINGLE DARK RED.

## **HYACINTHS**

It has always been admitted that Hyacinths— because of their large heads of fragrant flowers, held at uniform height on substantial stems-were ideal for the formal spring bulb bed.

But the flower lover who uses them only for this purpose—who fails to thoroughly intersperse them in the front of the perennial and annual borders and beds, is losing sight of an opportunity to beautify such portions of his ground, at a season when bloom is otherwise sadly lacking.

Hyacinths are also one of the best plants that can be relied upon to brighten the home during the months when nothing is in bloom outside. They force easily—if you tried them unsuccessfully it is probable that we may give you some hints which would obtain you better results. As a guide to best results we state below those that have given greatest satisfaction for forcing.

Plant six inches deep (to bottom of bulb) and

six inches apart in beds.

A splendid display of these typical Dutch bulbs can be made by putting them in beds. Pick out the location for your bed which can be made oblong, round, or square or any shape, according to taste. An oval bed of about  $11\frac{1}{2}$  feet by  $7\frac{1}{2}$  feet will require about 300 bulbs, while 100 bulbs make an excellent showing in an oblonged bed 2½ by 7 feet. Plant them six inches deep and six inches apart. It will be well to pay attention to the various color combination we are giving under the heading "first size Hyacinths." We might say that the second size as well as Bedding suit the purpose of planting outdoors just as well as the first size and will not run into such a high

We can furnish mixed hyacinths in either red, white, or blue at 5c. each; 50c. a doz., or \$3.00 per hundred; but we lay the emphasis on these because experience shows that knowing garden lovers realize that even this superior grade of mixed is not as desirable for bedding as those below nor at all available for forcing.

#### SINGLE DARK BLUE.

| King of the Blues, good spike | 3.00         |
|-------------------------------|--------------|
| SINGLE YELLOW.                |              |
| Ida                           | 3.25<br>3.50 |

### BEDDING HYACINTHS

#### Chiefly for Outside Planting.

Although we reserve the right to ourselves to send out Bedding Hyacinths after our own Selection, yet we are willing to accommodate our customers as far as possible when they want us to send the Bedding Hyacinths with names attached.

This should be mentioned on the order sheet.

Do not confuse these with the cheaper "bedding mixtures" which are always without names.

|                          | Doz.   | 100.   |
|--------------------------|--------|--------|
| Single Red               | \$0.60 | \$4.00 |
| Rose and Pink            | .60    | 4.00   |

| Light and Porcelain Blue | .60    | 4.00   |
| Yellow                   | .70    | 4.50   |
| Double Red               | .70    | 4.50   |
| Rose                     | .70    | 4.50   |
| White                    | .70    | 4.50   |
| Blue                     | .75    | 5.00   |
| Light and Porcelain      | .75    | 5.00   |
| Yellow                   | .75    | 5.00   |

A small corner of one of our Hyacinth Fields in which the finest Hyacinths which come from Holland are grown.

### SECOND SIZED HYACINTHS FOR FORCING

Although as a rule first sized Hyacinths are superior to second sized ones when it comes to forcing, yet these second sized Hyacinths will make a very nice display in beds or even when planted in pots. Used largely by florists. We feel convinced that you will be satisfied with them.

Six at a dozen price; 25 at hundred price.

#### Shall recommend your bulbs to others.

Jan. 20, 1915.

8.00

I received your package marked "6 R. Hyacinths with interest for overlooking your order." I appreciate your kindness very much but am not aware that you have overlooked any order of mine. Your house has been very nice to me, and if there has been a mistake I shall be glad to help you get it straight. I like your bulbs immensely and shall recommend them to others. Durham, N. C. Miss A. E. B.

## FIRST-SIZED NAMED HYACINTHS

Six at dozen prices; 25 at hundred prices.

La Innocence-Pure White

For bedding as well as forcing, it pays to buy first-sized hyacinths of named varieties. Full spikes of true-to-name Hyacinths are well worth the investment.

One particularly important point, which is too often overlooked, is the fact that few really first-sized hyacinths are offered this year, and none too many any year. For it takes five years to grow a hyacinth bulb to the point where we class it a first-size bulb—although there is a tendency to sell smaller younger bulbs as first-size.

"Wakru" First Size Hyacinths are the pick of the five-year fields of Gt. Van Waveren & Kruijff, whose reputation on hyacinths has been that of leadership for a score of years.

Try this size once—note how large and firm the bulbs are—how strong and full of bells each flower stem is—you will select Wakru first size thereafter.

The varieties marked with \* are best for glasses or

Wakru "Named Hyacinths first-sized Bulbs" are real first-sized Bulbs, and far superior to those often offered as first-sized Bulbs.

A slight difference in price, a big difference in quality.

Try our first size.

#### SELECTED BEDDING COMBINATIONS.

For bedding purposes we give you the following combinations, which may be very handy for you: Robt. Steyger, dark red.

Mad. van der Hoop, white.

King of the Blues, dark blue. King of the Yellows, golden yellow.

Gertrude, pink. L'Innocence, pure white.

Robt. Steyger, dark red. King of the Yellows, yellow.

L'Innocence, pure white Johan, light blue.

Sir Wm. Mansfield, purple. King of the Yellows, golden yellow.

## **TULIPS**

The time has long since passed when the planting of tulips in the average garden was restricted to a few formal beds. Now the early single tulips and the early double tulips are profusely used for formal beds and borders, while the Darwins, parrots and May Flowering Tulips are generously used to brighten the perennial beds and lengthen their season of bloom.

#### SPECIAL OFFER ON NEW VARIETIES

We suggest that tulip lovers acquaint themselves with a few new varieties each year. For this purpose we offer ten each of three finest recent single tulips (Herman Schlegel, Le Reine des Reines and Pelican) for \$4.25. Ten each of the finest recent double tulips (Boule de Neige, Mary Garden, Schoonard and Theeroos) for \$6.00.

INSTRUCTIONS ON PLANTING TULIPS. Plant 4 inches deep (to top of bulbs) and 4 inches apart in beds.

The culture of Tulips is one of our great specialties. Being owners of the very best grounds for Tulips (rich loam and pure sand), we dare say their Tulips are unsurpassed and sure to give the greatest satisfaction, for forcing as well as for bedding purposes.

## ARRANGEMENTS OF COLORS FOR BEDDING.

Chrysolora and Belle Alliance.
Couleur Cardinal, itself makes one of the most beautiful beds.
Cottage Maid and Yellow Prince.
Duc De Berlin and White Hawk.
Duchesse de Parma, by itself.
Keizerskroon, by itself.
La Reine and Artus.
Maes, unsurpassed when bedded without anything else.
Pottebakker White and Chrysolora.
Princess Marianne and Ophir d'Or.
Prince of Austria and Herman Schlegel.
President Lincoln, by itself.
Rose Gris de Lin, separate in one bed.
Thomas Moore, by itself.
Wouwer Man and Ophir d'Or.
Vermillion Brilliant and White Hawk.

If you will note these suggested varieties you will have a complete succession of bloom from Christmas until the Easter

season.

### SINGLE TULIPS FOR FORCING

#### For Flowering in December and Early January.

| 1—Adeline, rosy violet, with a yellow centre.<br>Height 8 inches   | .43     | 2,45   | 21.00   |
| Arms of Leiden, white flamed carmine   | .23     | 1.25   | 11.00   |
| 2-Artus, rich scarlet, with clear yellow   | 20      |        | 0.50    |
| centre. Height 10 inches   | .20     | 1.10   | 9.50    |
| let, with yellow centre. Height 9 inches   | .30     | 1.75   | 15.00   |
| 1—Brilliant Star, brilliant scarlet, color and<br>habit as Vermillion Brilliant, but much  |         |        |         |
| larger, splendid early forcer  | .95     | 5.00   | 40.00   |
| 2—Cerise Gris de Lin, rosy-violet. Height  | \$0.80  | \$4.00 | \$35.00 |
| 1-Chrysolora, deep golden-yellow. Height   |         |        |         |
| 11 inches  | .30     | 1.50   | 12.00   |
| 1—Cottage Boy, orange-red bordered orange-<br>yellow. Height 9 inches  | .42     | 2.50   | 23,00   |
| 1—Cottage Maid, lovely rosy pink shading to cream-white. Height 9 inches   | .23     | 1.25   | 10.50   |
| 2—Couleur Cardinal, intense crimson, shaded with plum on the exterior, yellow centre. Height 11 inches   | .37     | 2.15   | 19.00   |
| A grand Tulip, which makes a very decided show in a bed.   |         |        |         |
| 1—Duc de Berlin, scarlet, edged orange-<br>yellow. Height 8 inches   | .30     | 1.75   | 16.00   |
| 2—Duchess of Parma, large orange-red with<br>a bold irregular margin of deep yel-<br>low, suffused with rose on the outer<br>petals. Height 13 inches                      | .24     | 1.45   | 11.50   |
| 2—Flamingo, shape like White Hawk, color   | .24     | 1.43   | 11.50   |
| white, flaked rosy red   | .80     | 4.15   | 36.00   |
| A variety which has not been on the<br>market very long. In forcing it gives<br>great satisfaction, the color resembling<br>the beautiful plumage of the flamingo<br>bird. |         |        |         |
| 1—Fred. Moore, bright orange shaded with scarlet, handsome and effective. Height   |         |        |         |
| 15 inches  | .23     | 1.50   | 11.00   |
| Very sweet-scented and of a fashionable color.   |         |        |         |
| 2-Goldfinch, the pure yellow golden Prince.  | .27     | 1.45   | 12.00   |
| Herman Schlegel. The yellow La Reine. This flower is of a light yellow color and   |         |        |         |
| has the same light rose like the La<br>Reine; it is an easy forcer. 5c each  | .35     | 2.00   |         |

The varieties marked 1 generally begin to flower about the 20th of April; those marked 2 after the first of May. By selecting bulbs preceded by the same figure, and of the colors desired, you find the problem of making up a bed of Tulips pleasing in color combination, which will bloom at about the same time, very much simplified.

|    | broom at about the same time, ver  | Doz.       |              |                |
|----|--|------------|--------------|----------------|
|    | -Joost van den Vondel, rosy red, more<br>or less flaked with white, and suffused<br>with delicate rose on the outside.   |            |              |                |

to value of 10 per cent on all bulb orders paid for by July 1st, 1916. (See page )

The remarkable new double yellow tulip Mary Garden introduced by Van Waveren & Kruijff.

# POUBLE TULIPS SUITABLE FOR FORCING For Flowering in January. SALVATOR ROSA.

For Flowering End of January to End of March. COCHENILLE, COURONNE D'OR, EL TOREADOR, IMPERATOR RUBRORUM, MURILLO, TITIAN, TOURNESOL, YELLOW TOURNESOL.

## ARRANGEMENTS FOR PLANTING DOUBLE TULIPS IN BEDS.

Double tulips should be placed one variety in each bed; grouping different varieties does not produce such a good effect. We advise for that purpose the following splendid varieties:

COURONNE D'OR, LA CANDEUR, LADY PALMERSTON, LE MATADOR, MURILLO, SALVATOR ROSE, WILLIAM III and LA CANDEUR.

#### EARLY DOUBLE TULIPS

The varieties marked 1 generally begin to flower last week of April; those marked 2 first week in May, while the latest to flower are marked 3.

| to down one morted 2   | ٠, ١, ١, ١ |      |       |

#### VARIEGATED-LEAVED TULIPS

The unusually attractive variegated foliage of these Tulips and the pleasing flowers are sure to make them popular in America once they are better known. Yellow Rose, particularly, deserves to be more planted. Blooms late, bears sweet-scented double flowers of an excellent yellow.

#### BIZARDS.

These bizard Tulips, blooming in late May, are being used largely for naturalizing in borders and for oddity beds. Imagine the wonderful contrast of purple, crimson and brown markings on the yellow grounds of these large, showy flowers, you will realize why these are so popular in Europe and the British Isles for their outdoor effects and cutting purposes.

#### Tulips proved everything one could wish for.

April 23, 1915.

Last Fall I sent you an order for some tulips and also some Dahlias. The tulips I received in due time and they proved everything one could wish for. I hope the dahlias will be equally successful.

#### Laton, Cal. Mrs. C. D. M.

## Bulbs gave great satisfaction—may expect another order.

June 8, 1915.

I purchased some bulbs from you last Fall which gave me great satisfaction. I am writing for your bulb catalog, and you may expect another order.

Bellevue, Mich. Rev. G. T. C.

## DARWIN TULIPS

We strongly recommend this class of Tulips for garden decoration in groups, in the herbaceous border and amongst shrubs.

Grown for cut flowers, they will prove very valuable at a time that our gardens yield so little to decorate our rooms.

They flower during the middle part of May, a time in which the spring flowers are over and the summer flowers, such as roses, have not yet come in.

Growing to a height of a couple feet, with perfectly colored flowers double the size of an ordinary Tulip, the Darwin deserves to be thoroughly interspersed along the borders.

It is well to put Darwin Tulips at the back—other May-flowering Tulips in front, and a border of early Tulips if you want almost continuous bloom, while the other plants are getting started.

#### Fine for Forcing

By slowly forcing in pots they may be had in bloom in March or even earlier; most of the varieties improve in color by protection under glass or canvas.

The list of varieties we offer is carefully selected and includes nothing but fine varieties. We have discarded a great many varieties which we considered inferior to those we now offer.

From Covington, Tenn.—"Better results from ours second year, than from others first year."

"Two years ago I gave your firm an order and I want to say that nothing has ever been seen here like the results I got. Especially the Hyacinths and Tulips. My Liliums did not do so well, owing, I think, to weather conditions. Last year I mislaid your catalogue and ordered from other florists with indifferent results. In fact, the bulbs from your firm did better the second year than the first year bulbs from other florists. Several parties have asked me about ordering from you and I think I can secure you several responsible customers at this place." S. S., 5-26-14.

## Crocus—Named Varieties

Our Crocus prices are not the lowest, but for the quality of stock we furnish they are very moderate, and we question if such quality can be had except direct from growers like  $\dot{W}$ . &  $\dot{K}$ .

You will have a pleasing surprise the first spring day next year if you scatter Crocuses liberally across your lawn and in colonies along the front of your flower beds now. Don't confine yourself to the yellow sorts alone—remember that a touch of blue color in early spring is most welcome; that the white, purple and striped and spotted sorts offer an excellent forecast of your garden season of pleasure.

Plant Crocus on the lawn 2 inches deep, and 3 inches apart in colonics, blending away to intervals of 6 inches, if you want an old and pleasing effect. Remember it does them no harm to be cut down when the lawn needs its first application of the mower.

PARROT TULIPS (Sometimes called "Dragon Tulips")

These unique flowers were formerly raised in too few American gardens.

### PARROT (or Dragon) TULIPS

In the whole garden year nothing is more showy, more grotesque than the fragrant Parrot (or Dragon) Tulips. The wavy, irregular outlines, the brilliantly streaked petals, the oddly grotesque fashion in which they combine contrasting colors, are responsible for the growing interest being shown by the American public.

They bloom outdoors about the middle of May; have large flowers on graceful stems.

#### Well pleased with results from goods purchased.

May 6, 1915

While I am not in position to order anything at the present time, I trust I may be able to keep track of you during the summer, and would say I have been well pleased with the results obtained from goods purchased from you last Fall.

Philadelphia, Pa.

A. B., Jr.

#### Friends enthusiastic over variety of color and forms.

May 10 1915

I felt as if I must write you how beautiful are the Darwin Tulips I bought of you last Fall. I had a small studio tea to show them to my friends, and they were all enthusiastic over the variety of color and their graceful forms.

Philadelphia, Pa. M. F. B.

# NARCISSI (DAFFODILS)

The Narcissus vies closely with the Tulip and Hyacinth for spring honors. Dainty in color, graceful in habit, it furnishes long-stemmed flowers which are highly desirable for cutting.

The poeticus varieties are very sweet-scented and like all the Narcissi are especially well adapted for naturalizing in the semi-shady spots where the sun's rays are slightly broken.

It is well to be remembered that Tulips and Hyacinths need more sun and lighter soil than the Narcissus, and to arrange your planting accordingly if you want flowers that excel all in the neighborhood.

In planting do not break off the small bulbs which adhere to the sides of the Narcissus bulb—as these will send up blooms and provide for growth of a small clump from each bulb. Strangely, the American habit seems to be to separate the small attached bulb from the parent, losing its vitality largely and preventing the increasing clump, which Narcissi form

Remember, too, that Narcissi should be used generously for naturalizing in meadows, etc., as they will increase year after year without any necessity of lifting the bulbs, provided the grass is not cut before the Narcissi tops have ripened.

TRUMPET NARCISSUS EMPEROR

#### NARCISSUS POETAZ

From a cross of Narcissus Poeticus and the Polyanthus Narcissi.

This new strain may be considered to be an improved race of the old Polyanthus Narcissi. They are perfectly hardy, have many-flowered stems and larger sweet-scented flowers, and fit for pot culture as well as for forcing.

#### DOUBLE NARCISSI

Among the double Narcissi none is so well known as the double Von Sion. This is the double yellow daffodil so popular in America around the Easter season, and for this purpose it is forced by florists in larger quantities than any other Narcissus.

The orange Phoenix shades from white to deep orange with a blending of yellow between; the Sulphur Phoenix from white to sulphur yellow. Of these two, the Orange Phoenix is generally considered the more satisfactory for forcing—but in cemmon with all other double Narcissus, any of these varieties are easily grown cuttleges.

|----------|---------|------------|--------|
| Splendid | mixture | <br>\$0.45 | \$2.50 |

#### RANUNCULUS

The Ranunculus Grandiflora is a brilliant feature of the fine gardens on the continent, but is comparatively little known, at its best, in America. In the opinion of American experts who have studied the conditions under which they flourish abroad, it should be easy to grow them in California and the entire Southwest, where the rainy season most closely duplicates those of their native Asia Minor. In other sections, growing Ranunculus outdoors requires care and skill—is a worth while test of expert gardening ability.

As a forcing flower Ranunculus has been standard for a

As a forcing flower Ranunculus has been standard for a half-century, there is no reason why any one should have trouble in getting a profusion of blooms with Ranunculus in his

| Turban, all colors mixed   | .20                      | 1.20 |

#### **IRIS**

In few flowers is there more world-wide interest than in the Iris. The German Iris, or Flag, was the first to interest any large number of American flower lovers, but the more graceful Japanese types have been introduced into most Ameri-can gardens long before this.

Admittedly the ideal Iris is Iris Hispanica, or Iris Anglica, the growing of which has been confined largely to American florists due to the feeling that the plant was difficult to raise.

True, the Spanish Iris requires more winter protection than the sturdy German types, but it is worth the effort, if you will plant in September and give it a rich, moist soil and good winter protection, you will find that the orchidlike blooms secured in May will well reward you.

#### From Germantown, Pa.—"A fine display this spring."

"The lot of Bulbs I bought from you made a fine display this spring. I will call on you in the fall."

May 12, 1915. G. H. L.

#### From Beverly, Mass.—"Superior to the blooms in the Boston Public Garden."

May 9,1913. "The Tulips were fine. My 'Duchess de Parma,' 'Maes,' and 'Rose Gris de Lin' were equal, if not superior, to the blooms in the Boston Public Garden. My mixed bed also was very good."

P. A. T.

#### Florist never had finer bulbs.

The bulbs received and must say that I am pleased with them. If they give blooms the size of the bulbs I will have fine stock Langester. In never had finer bulbs. J. F. J. Lancaster, Pa.

#### Trust next order will equal last for quality.

April 29, 1913.

We enclose herewith check for \$71.10. We are very well satisfied with the bulbs we purchased from you last season and we trust that the order we have given your salesman for next season will be of same good quality.

Swarthmore, Pa.

S. &. L.

## ALL THE BULBS ON THE FOREGOING PAGES

should be ordered before August 1st. Orders by July 1st are in every way more advantageous.

## Dahlias, Gladiolus, Spireas and Begonias

we prefer to ship in Spring, as they do not arrive till late Fall and are likely to reach customer after the ground is frozen. If you wish to include these in your fall order advise and we will send a complete list of the finest Holland grown stock, making deliveries in Spring unless you specifically request otherwise.

You cannot secure equally fine stock elsewhere.

#### Bulbs different from any purchased elsewhere.

May 13, 1915
All the Tulips are beautiful and entirely different from the 200 Early Flowering ones I purchased elsewhere at the same time.

J. L. A.

#### Dahlias doing nicely.

Enclosed please find P. O. order for twenty-four and 65/100 dollars to cover bill for Dahlias. They are doing very nicely and are satisfactory.
Paterson, N. J. S. H., Jr.

#### Geisha Dahlia arrived in fine shape and generous quantity.

The Geisha Dahlia ordered from you arrived on Saturday last in fine shape and generous quantity. If it is as true to name as it is satisfactory otherwise, I shall have received the greatest value for the money since I have been planting seeds, etc. I shall take pleasure in bringing this before our society. Would be glad to receive your catalog if you distribute any. Please find amount due you enclosed. enclosed Philadelphia, Pa. Dr. H. A. I.

# "WAKRU QUALITY" SEEDS, FREE

To celebrate the 50th anniversary of Van Waveren & Kruijff, growers of Wakru Quality Bulbs, and to introduce the new Wakru Seed Department, the Wakru Girl offers FREE any of the following seeds to a value of ten per cent. on any order exceeding one dollar for bulbs found on the preceding pages. The only condition is that the order is to be given and paid for before July 1st, 1916, enabling us to send your order early to Holland and secure the very best pick of this season's bulbs.

The seeds offered are all seasonable for planting now and during the next couple months. Any seeds listed below can be bought at the price per packet listed and such cash purchases may be added to your bulb purchases to determine the total on which your ten per cent. of FREE SEEDS may apply. When sending your order please note on back of blank your preference as to varieties of FREE SEEDS, giving a second choice where possible, as the quantity of many of these extra quality seeds which can be furnished at this season is necessarily limited.

#### ANNUALS FOR FALL BLOOM IF PLANTED BEFORE JULY 15th

In late summer and fall, when bloom in the garden is scarce, these annuals will brighten the garden and furnish excellent flowers for cutting, if planted by July 15th or before.

| Japanese Kudzu Vine, will grow six or eight feet from seed | Fine Mixed 10c   |
| first season, and spread 40 or 50 feet next season 15c     | Giant Trimardeau, a packet containing practically 400          |
| Perennial, beautifully, glossy, green foliage              | seeds of finest colors   |

### HARDY PERENNIALS EASILY GROWN FROM SEED

Here is real interest for the garden lover—and real profit. He can grow from seed (planted either indoors now and transplanted outside in September, or planted outdoors now), many of the finest perennials—a single plant of which would cost him more than the generous packets of seed listed below:

| Packet   | Packet  |
|--|---|
| Aquilegia (Columbine) single mixed   | Pyrethrum Hybridum, the beautiful flowering pyrethrum, fine for cutting. Mixed single |
| Delphinum (Perennial Larkspur) choicest mixed 10c<br>(Sift coal ashes over these in fall to keep out grubs)        | Mixed double  |
| Marguerite Carnation, an annual which blooms earlier and<br>keeps blooming longer if planted in fall and protected | Digitalis (Foxglove) grows 4 to 5 ft. high.  Gloxiniodes (mixed) fine spotted flowers |
| slightly over winter Choicest mixture  | Monstrosa (mammoth) mixed flower  |

#### All large, fine bulbs.

If you have flower beds and wish to make a border around them, use one of the following collections (L): Planted in two rows, 6 inches apart; 90 bulbs will be sufficient to edge the front of a 25foot bed. These varieties will be of about equal height and will flower at about the same time.

#### COLLECTION "L"-No. 1. 180 Early Single Tulips for \$2.00.

90 Early Single Tulips, scarlet (Artus).

90 Early Single (La Reine) Tulips, white, pink tinge.

> COLLECTION "L"-No. 2. 135 Double Tulips for \$2.00.

90 Early Double Tulips, beautiful pink (Murillo). 45 Early Double Tulips, red (Rubra Maxima).

Use sixty-five of the pink for the first row and alternate the remainder with the fifty bright red.

#### COLLECTION "M." 158 Bulbs for \$2.50.

24 Hyacinths, red, rose, white and blue separate.

24 Single Tulips, red, rose, white and yellow.

50 Crocus, white, yellow, blue and striped separate.

24 Single Narcissus, white and yellow.

24 Spanish Iris, yellow, white, light and dark blue. 12 Snowdrops (Galanthus Nivalis).

### COLLECTION "N."

Twelve Early Single Tulips FREE.
